Our second engine to run successfully is the German Oberursel UR.2 rotary engine. The original is very rare, and yet it powered the Fokker Triplane - surely the most popular WW1 aircraft in the vintage aircraft building community. We were lucky to have access to an original engine, to examine and reproduce.

### **Adams-Farwell Rotary 5 Engine | National Air and Space Museum**

The Monosoupape (French for single-valve), was a rotary engine design first introduced in 1913 by Gnome Engine Company (renamed Gnome et Rhône in 1915). It used a clever arrangement of internal transfer ports and a single pushrod-operated exhaust valve to replace a large number of moving parts found on more conventional rotary engines, and made the Monosoupape engines

some of the most ...
