Best Answer: The Check Engine light can come on for many reasons. If the oil light isn't on then it isn't a oil pressure problem. If the light is off, and hasn't come back on then it was probably just a minor malfunction and isn't a problem. If it comes back on turn off the ignition, hold the trip reset ...

I have a 2006 dyna street bob with 1800 miles on it. Two weeks ago I was riding it and the check engine light and the battery light came on. I checked the battery cable connections and ground and they were tight. A few days later the bike wouldn't start and I charged the battery. Bike started but the lights were still on. 9 days later the bike wouldn't start so I recharged the battery.
