### **Grounding - IlSCO**

One issue I ran into with 3/0 bonding cable is that when we tried to connect to the building grounding system, the electrical engineer used the busbar inside the switchgear for the main building busbar. The bar inside the equipment had no way of terminating a 3/0 cable. Joe Harris, PE, RCDD, TPM

### **3/0 Cable For Grounding - BICSI Forums Community**

Grounding Busbar. Proper bonding is essential to create an equipotential plane between service grounds and equipment during fault and transient conditions. This equipotential plane provides a near-zero voltage differential, and serves to protect people and equipment during these events. The grounding busbar is the most popular bonding product in use today.
