Community - GameSpot

Steam doesn't force ANYTHING on you and there isn't any 3rd party software involved other than the one strictly required by the game to work. There are no ads (wtf are you talking about), the popup that is shown often is a news window which can be disabled in Steam settings. As for the patch you're looking for, you're not getting the idea of Steam.

How to update games on Steam? | TechPowerUp Forums

Having Steam install and manage everything versus having to go through the developer of each game you own greatly reduces time spent on your part. If you become familiar with the platform you will already know where to go should you need to access the files for say, the operating manual for a locomotive.
