Green Engine | Seminar Report, PPT, PDF for Mechanical

If the green-jobs claim sounds too good to be true, that's because it is. Holding it up to the light exposes it as economically hollow. Making matters worse, a powerful green-jobs movement has emerged, made up of left-wing antipoverty activists and union leaders, all of them clamoring for a more conventional kind of green: government dollars.

The Green-Jobs Engine That Can't - city-journal.org

The Green Engine Co was a British engine company founded by Gustavus Green in Bexhill to sell engines of his design. He flourished especially as a designer of aeroplane engines during the first two decades of the 20th century. The engines were actually manufactured by the Aster Engineering Company.. History. The firm produced a range of water-cooled, mostly inline engines up to about 1915.
