### **Hino Engine Problems**

Has anyone had overheating issues on their Toyota Hino 338. I have had a lot of problems. It seems the front air intake is not large enough to cool the engine properly. Secondly, It gets bugs built up on it every 3 months and has to be pressure washed. Also, the engine oil blow out sprays onto the transmission.

They were a price-point engine for a price point boat. Since Bayliner usually put the small Hino's in their boats, they had to be pushed to the limit to get anywhere. Since they were usually pushed to the limit, they are probably shot. Try this. Call a few marine service dept's and ask about servicing a Hino. Then see what they tell you.

Two years ago, in response to a question about the longevity of Yanmar diesel engines, I wrote that I had serious reservations about the extensive use of cast aluminum components on those engines. Up to that time, we hadn't heard of any serious problems with the engines, but then, they were fairly new on the market at that time.
