it a little confusing to do a reset. i do not remember if you have to go on engine or dozer. but once you do a "system fix" you should be connected to the truck. from there you have to go to "check functions" then "activation test" that should open two windows (depending on witch dx software you have) navigate to the top window and make it bigger (you have to make it bigger so you can choose ...

Hino DPR maintenance reset? - mhhauto.com

This light is one of the most common and recognizable dash lights, and often also has the word "CHECK" inside or underneath the engine symbol. It can also appear as a text-only light. This indicates a problem with the engine or emissions, and requires immediate attention. However, it can sometimes indicate a missing gas cap.

Dashboard Indicator Lights and What they Mean | Ripley's ...

I have a Hino truck also. Mine is a 1995 FD2218 (box truck). On my truck, this light is the warning light for air brake pressure. But I also have gauges for the front and rear air brakes. Doesn't sound like your system though. On mine, it's a bendix air brake system. The air reservoir tank has three chambers in one tank.
