A recommended list of Hickok tube testers, The main reason why particular testers are on this page is that, it is easier to find tube test data for these models, and/or these models are easier to repair.

A recommended list of Hickok tube testers,

The Gm for all tubes varies with plate voltage and current, by as much as 300%. Now the plate voltage in a Hickok is 150V, so that takes care of one of the variables, but the plate current is dependent on grid bias, so a "calibrated" tube is only useful when you know your grid bias is the same as the machine it was calibrated on.
