### **Harley Davidson 103 Engine Noise**

OK, this is one of several times I am hearing this strange noise(S) when the engine is hot hot. Going down the highway or just pulling out, the noise sounds like metal marbles from somewhere in and around the front cylinder. I had it back to the dealer for this and they could not duplicate the sounds. The bike is a 2012 FLHTK 103 Motor.

Purchased a 2012 Limited 8/27 (my first Harley). Broke it in as the book said and soon after the purchase noticed some valve noise in the bike...more than I am used to on the other bikes I owned.(metrix) Also at highway speeds between 2200 and 2800 RPM noticed a noise that sounded sometimes like a valve clatter or maybe like you were floating the valves at high speed in an old car.

The Harley-Davidson Twin Cam engines are motorcycle engines made by Harley-Davidson since 1998. Although these engines differed significantly from the Evolution engine, which in turn was derived from the series of single camshaft, overhead valve motors that were first released in 1936, they share a number of characteristics with nearly all previous Harley-Davidson engines.
