Series9000 - Argo International

The gerotor pumps have trochoid gears. Smooth operation, low noise and excellent suction characteristics are all distinguishing features.. The centrally seated drive gear drives an external eccentrically seated annular gear. As a result of which cavities inside the pump compress and enlarge, thereby creating the suction and feed effect.

Gerotor pumps | SKF and Lincoln

A gerotor is a positive displacement pump.The name gerotor is derived from "generated rotor".A gerotor unit consists of an inner and outer rotor. The inner rotor has n teeth, while the outer rotor has $n+1$ teeth; with n defined as a natural number greater than 2. The axis of the inner rotor is offset from the axis of the outer rotor and both rotors rotate on their respective axes.
