Clinical Radiology Imaging Services at West Hertfordshire Hospitals NHS Trust. The Radiology Directorate is part of the Clinical Support Division, which includes Pathology, Pharmacy and Therapies.

Clinical Radiology: West Hertfordshire Hospitals NHS Trust

I. INTRODUCTION. With CT automatic exposure control (AEC) systems, the exposure time is held constant (i.e., the pitch and tube rotation time are preselected and usually cannot change mid-scan), but the mA is modulated.

CT protocol management: simplifying the process by using a ...

A new version of CTDosimetry (version 1.0.4) was made available for download in May 2011. Click here to obtain the download.. Version 1.0 added the ability to calculate effective doses according to ICRP 103 as well as the existing ICRP 60 method, added data for several more scanners as well as a number of other smaller changes (see below for full list).

impactscan.org | ctdosimetry.xls - ImPACT's ct dosimetry tool

CT Dosimetry (CTD) is a tool for calculating effective dose (E) from CT scan data. It is a spreadsheet (xls) that can be used to calculate effective dose for a given CT scan. It is a tool for calculating effective dose (E) from CT scan data. It is a spreadsheet (xls) that can be used to calculate effective dose for a given CT scan.

CT Dosimetry (CTD) - nhi.gov.tw

$E = \sum w_T \cdot H_T$ E : effective dose w T: weighting factor for organ or tissue T H T: equivalent dose in organ or tissue T The E, is defined in ICRP 60 [ICRP, 1991], ICRP 103 [ICRP, 2007b] and ICRU 51 [ICRU, 1993]. It is the sum over all the organs and tissues of the body of the product of the equivalent dose, HT, to the organ or tissue and a tissue weighting factor, wT, for that organ or

Medical Dose in CT - ddmed.eu

CT scan can be used for detecting both acute and chronic changes in the lung parenchyma, that is, the internals of the lungs. It is particularly relevant here because normal two-dimensional X-rays do not show such defects.

CT scan - Wikipedia

When your doctor gives you a prescription for an imaging test (X-ray, MRI, Nuclear Medicine, CT, Ultrasound, Mammogram), North Ottawa Community Hospital can help. We make it easy for you to take advantage of our advanced imaging technology provided by caring, qualified technologists and physicians.

Virtual Endoscopy of the Nasal Cavity and the Paranasal ...

1. Introduction. Accurate information about the geometry and topology of a patient's vasculature is crucial for many medical applications. In patients with suspected coronary artery disease, information about the cardiac vasculature may be obtained non-invasively using a cardiac CT angiography (CCTA) scan (Leipsic et al., 2014).A typical first step in the analysis of CCTA scans is the ...
