1. Introduction. Recent systematic reviews have suggested that “structured pedagogic programmes”, or “structured learning programmes”, are effective at promoting instructional change and student learning in early grade reading and mathematics outcomes (Fleisch, 2018; Snilstveit et al., 2016; Popova et al., 2016). These programmes combine highly specified curricula, training on ...

Inquiry-based learning (also enquiry-based learning in British English) is a form of active learning that starts by posing questions, problems or scenarios. It contrasts with traditional education, which generally relies on the teacher presenting facts and his or her knowledge about the subject. Inquiry-based Learning is often assisted by a facilitator rather than a lecturer.

The National College Entrance Examination was created in 1952. The unified national tertiary entrance examination in 1952 marked the start of reform of National Matriculation Tests Policies (NMTP) in the newly established PRC. With the implementation of the first Five Year Plan in 1953, the NMTP was further enhanced. After repeated discussions and experiments, the NMTP was eventually set as a ...
