The design of the Honda CT 90 engine is unique as the cylinder is almost horizontal to the ground. The transmission of the engine was a four-speed manual transmission. According to Honda the lower gears of the CT 90 have exceptional climbing power and are effective for off-road terrain or steep terrain.

In the early years, Honda used to "bundle" similar models of motorcycles together in one shop manual. The above manual was published in early 1977 and was the last of the bundled shop manuals to include the CT90. The following years had a dedicated shop manual just for the CT. This is an Adobe Acrobat PDF document of 179 pages.
