Engineering Noise Control: Theory and Practice

Fourth Grade Science Waves - Sound The following learning activities were backwards planned to facilitate the development of students' knowledge and skills for mastery of these NGSS Performance Expectations. Not all of the dimensions and CCSS are covered in the following activities and teachers are encouraged to address them where possible.

Fourth Grade Science Waves - Sound

Sonar, reading glasses, light bulbs, stereo equipment and lasers, are just a few of the many items that engineers are involved in designing. To develop the technologies necessary to create these items, engineers must thoroughly understand how sound and light waves work, as well as wavelengths and amplitudes of waves.
