A key feature of the design is the rotating gripper attached to the moving platen, which grips and releases the paper stock. It's this gripper which has stimulated American owners to dub it "the windmill". It's also the reason why the presses have a large metal plate embossed "Original Heidelberg" high on the front.

"Our family letterpress business needed a Heidelberg Windmill, a good one that we could trust with high quality work – from the time the press hit the floor. After months of looking, we settled on a press from Whittenburg. Other than changing out rollers, we have had no reason to stop the press from running every day.
