Ge Cf6 80 Engines

The CF6-80A and -80C2 engines are known for their high reliability, and this was evident during extended twin operations (ETOPS) testing. Both engines received 180-minute ETOPS approval on the Boeing 767, and the CF6-80C2 engine received 138-minute ETOPS approval on the A300 and A310 aircraft that allowed twin-engine aircraft operations over large bodies of water.

The CF6 Engine | GE Aviation

Two of the big questions in commercial aviation today are "How long will low fuel prices continue?" and "What effect will they have on the longevity of mature equipment?" Only OPEC can answer the first question, but an analysis of the General Electric CF6-80 engine's situation can provide ...
